

Pre anaesthetic instructions

Please do not feed the animal having the anaesthetic after 7.00pm on the previous day.

His/her water may be left available until 7.00am on the morning of the appointment.

Please bring him/her to the surgery between 8.30-9.00am for the pre-treatment examination with a vet or nurse.

You may telephone between 2.30-3.00pm for information and to arrange a time for collection.

Bitch/cat/rabbit speys are generally kept overnight and may be collected after 8.30am the following day.

Please note: all treatment/medication must be paid for at the time of collection.
